## WORK EXPERIENCE

### Summer internship Schibsted / Aftonbladet

06/2021 - 09/2021

As a summer intern at Schibsted I worked as a full stack developer on Swedens biggest news paper, Aftonbladet.

#### Achievements/Tasks

- Improved klart widget integration and functionality on the front page.
- Took part in creating a minute of silence "take over" of the website.
- Helped trouble-shooting a failing service on one of the servers.
- Created an internal tool (extension) for easier auto imports of packages in monorepos.

### Full stack engineer Coeo events

10/2020 - Present

Coeo events is a startup company that provides a sustainable conference solution for visitors on site and remote.

#### Achievements/Tasks

- Implemented a solution for speakers at a conference to be able to get together in separate "rooms" which are then broadcasted live to the visitors.
- Researching and testing new technologies.
- Contributing with code both in the client and the server using ReactJS, ExpressJS and PostgreSQL.

### Software Developer Acino AB

06/2020 - 08/2020

As a consultant for Acino AB I worked on modernising 3LEDs managementsystem for ISO certifications.

#### Achievements/Tasks

- Creating new features, functionality and capabilities using Vue / Vuex / Vuetify / TypeScript.
- Performing bug fixes and code reviews.
- Recommending solutions for a user-friendly interface with user experience in mind.
